

## **MINI SEVEN RACING CLUB**

### **BULLETIN #1\_2013**

### **RE: ALLOY HUBS**

To all Club Members and Associates,

Following a query regarding the use of Alloy Hubs, and after consultations with both the M7RC's MSA Eligibility Scrutineer and Technical Commissioner, the Committee of the Mini Seven Racing Club issues the following clarification:

M7RC 2013 Regulations, Suspension section TR.5.8, under sub-section TR.5.8.1.1, the wording includes "*...Non-ferrous or Titanium suspension components are prohibited...*"

Hubs are deemed to be part of the suspension and, therefore, alloy hubs are not permitted for use on Mini Se7en (including S-Class) or Mini Miglia (including S-Class) Challenge cars.
