**BULLETIN #10\_2016**

**RE: 2ND NOTIFICATION RE: INNER REAR WHEEL ARCHES**

To all M7RC Members and Associates,

Following the specially convened meeting of the M7RC Technical Sub-Committee (TS-C), at Donington Park on Sunday 19 June 2016, and after considerable discussion, it was decided that no immediate action will be taken with regard to inner rear wheel arch modifications before the end of the 2016 racing season.

However, it was also agreed that suitable proposals will be put forward via the TS-C and Committee of the M7RC for approval at the next AGM/ATD, to amend/clarify wording in the regulations to allow for acceptable modifications.

Issued by: Richard Williamson  
Championship Coordinator - M7RC
